WILL RUSH WORK ON TARIFF BILL

Democratic Leaders Anxious To Wind Up Special Session

**Currency Reform To Go Over—Revised Underwood Measure
Will Be Laid Before Caucus Of Democratic Senators
This Week And Will Be Reported To The Senate
Wednesday Week—Bryan Urging Action On The
Arbitration Treaties**

Washington, June 16.—Developments indicate determination on the part of Democratic leaders of congress to pass a tariff bill and wind up the work of the extra session without action upon currency reform or any other important subject.

The tariff revision bill is to be pushed to completion and laid before the Democrats of the senate in caucus before the end of this week. In the meantime, notwithstanding President Wilson's repeatedly expressed desire to see some positive action taken toward a reform of the nation's financial situation, the controlling forces in the party of both houses are showing a disposition to defer action on monetary reform until the regular session opening next December.

The tariff is to come into the senate in the second stage of revision, in 10 days. The senate finance committee will complete work upon it early this week and an immediate call will be issued for a Democratic caucus. It is believed the bill will be formally presented to the senate, ready for debate in that body, by June 25.

The fight over free wool and free sugar, so far as the Democrats are concerned, is believed to be over by the administration leaders. Senators Ransdell and Thornton of Louisiana and Walsh of Montana are the only Democratic senators, it is now believed, who will refrain from taking the caucus pledge. Even Senator Walsh might support the bill, some of his friends declare, after it is apparent that he has done everything in his power to have a small duty put on raw wool.

The arbitration treaties sent in some time ago, extending existing agreements with Great Britain and several other countries, have not been touched in the senate for nearly 10 days. In the meantime the president and Secretary Bryan are understood to have urged Senators Chamberlain and O'Gorman to withdraw their opposition to the British treaty and allow its ratification.

Both senators have stated openly

within the last few days, however, that they do not propose to withdraw their opposition or permit the extension of the British arbitration pact unless it is forced upon them by a two-thirds vote of the senate. Their opposition is based upon belief that the United States should not again bind itself to a treaty that Great Britain construes as forcing this country to submit the Panama canal dispute to arbitration. If the British treaty is to be renewed, both senators demand that a clause be inserted expressly exempting the Panama canal from being a subject of arbitration.

STREETCARS COLLIDE

St. Louis, June 16.—Twenty-four persons, mostly women and children, were injured in a rear-end streetcar collision on the Greve Cover Lake line, in St. Louis county. Two of them, Mrs. Dora Blugham and Mrs. Regina A. Garouthers, will probably die.

DIED FROM HEAT STROKE

Cleveland, O., June 16.—John Deodona sat conversing with some friends on the porch of his home when suddenly he collapsed from a heat stroke. He died before a physician could be summoned.

FLOWERS SO THICK BLOCK RAILROAD TRAFFIC

Ironton, O., June 16.—For 25 miles the track of the Romney branch of the Baltimore & Ohio railroad is so profusely blooming with flowers that trains with difficulty can get along. When a train attempted to leave Romney, nasturtiums had gained such a headway in the engine and tender that the fire could not be maintained. The abundance of flow-

ers came about through two boards in the floor of a car loaded with nasturtiums, sweet peas and morning glory seeds breaking several weeks ago. The seeds were spread along the track and the heavy rains recently have turned the roadside into a flower garden. Bridges have been transferred into floral bowers.

KILLED BY TRAIN

Urbana, O., June 16.—Edwin A. Garrette, 73, of St. Paris, was struck by a westbound Pennsylvania passenger train. The aged man had been to his farm to pick some berries. His skull was fractured.

BURNS UP WARRANTS

Lima, O., June 16.—Fred Pierson, 16, held in the county jail on a charge of robbery and who set fire to the jail, later burned up warrants which had been served on him since his arrest.

LATEST FATAL WRECK ON NEW HAVEN R. R. PUTS MELLEN ON NEW GRILL; SCENES OF SMASH

Because of numerous previous wrecks and government investigation the recent fatal smashup on the New York, New Haven and Hartford railroad at Stamford, Conn., when six were killed and a score hurt, caused wide indignation. President Mellen,

who is under indictment in connection with the Westport (Conn.) wreck, on Feb. 12, 1912, when fifteen were killed, is again on the grill in connection with the management of the road as a result of the Stamford disaster, although the blame was put by

the road upon the engineer. The upper picture shows how the engine of section No. 2 plunged into the rear Pullman of the first section of the Boston to New York express. The lower view shows how the Pullman was lifted partly up on the engine as it plowed its way inside the car.

SNAKES AND FLYPAPER TO FIGHT GRASSHOPPERS

Sacramento, Cal., June 16.—Fly paper, molasses and even snakes are being used by orchardists and farmers in eastern Butte county to fight the grasshopper army. Yards of fly paper have been spread on some farms, and hoppers have been caught

by the thousands. The Bidwell company has smeared the base of trees with syrup and the trees are coated with hoppers. Battenhakes and other reptiles thrive on the pests and the farmers refuse to kill the snakes, but utilize them in the hopper fight.

BOYS KILLED BY LIGHTNING

Chardon, O., June 16.—During a storm which lasted only five minutes, near here, two boys were struck by lightning and killed and a third was hurt. The dead: Glenn Lampman, 14, son of Mr. and Mrs. Grove Lampman; Lawrence Hunt, 7, son of Mr. and Mrs. Lee Hunt. A boy named Prusha, playing with the Lampman and Hunt boys when the storm arose, was hurled against a fence by the bolt, but escaped with a few bruises and scratches.

2 PEOPLE CRUSHED

Lorain, O., June 16.—Mrs. W. H. Restine, 66, of near Milan, was killed, and her husband, 70, was seriously injured when their automobile turned turtle on Oak Point hill, three miles west of here. Restine was taken from beneath the machine unconscious and has not been told of his wife's death for fear the shock will be fatal.

AMATEURS FIGHT FIRE

Cleveland, O., June 16.—Because amateur fire fighters forgot to turn in an alarm for the fire department, \$8,000 loss was caused to a building. Jacob Labofsky, one of the volunteer firemen, was fatally injured.

Tried to Change Seats in Boat. Hammond, Ind., June 16.—Three men were drowned and two narrowly escaped death when they tried to change places in a rowboat in which they were crossing Cedar lake. The dead: Edward O'Mara, 24; Chris Kalrous, 28; Nicholas Kalrous, 32. Two other occupants of the boat were rescued by guests from a hotel.

EIGHT BODIES RECOVERED FROM SUB-WAY CAVE-IN

New York, June 16.—With the recovery of two additional bodies, making a total of eight, it is believed the roll of victims killed outright in the disastrous cave-in on the new Lexington avenue subway construction is

completed. The condition of two injured men dug out of the debris, however, is serious, and they may die.

An investigation to fix responsibility for the accident has been begun by Coroner Holtzhauser.

MINE OPERATORS PRESENT CASE

Have Scores of Witnesses to
Produce Before Probers.

THEIR ATTORNEYS KEPT BUSY

Will Attempt to Disprove the Testimony of a Former Mine Guard, Who Alleged the Use of Armed Cars in Firing On the Camp of Strikers. Miners Collecting Much Documentary Evidence.

Charleston, W. Va., June 16.—Coal mine operators of West Virginia began offering testimony today before the senate mine strike investigating committee.

Attorneys for the operators lined up scores of witnesses they will produce in an effort to show they are not to be blamed for the conditions which threw the Paint Creek and Cabin Creek mining districts into a state of civil war.

Much of the activity of the mine operators' lawyers will be directed toward breaking down the story of Lee Calvin, former mine guard, the star witness for the miners, who told the committee of his experiences on the armored train which shot up the camp of miners at Holly Grove, on Paint creek, just before the last declaration of martial law.

Calvin accused Quinn Morton, a mine operator, of urging that the train return and fire again on the camp, after the fire from the cars had once raked the little village, and after Clisco Estep had been killed beside his home. Quinn Morton himself, Sheriff Bonner Hill, who was on the train, and others who were on the train will be called by operators in an effort to disprove Calvin's statement. Calvin will be recalled for cross-examination.

The discussion of general conditions leading up to the strike is the only branch of the inquiry which the committee has left to dispose of during its stay in Charleston. On this point the operators desire to present many witnesses. When the inquiry here is concluded the committee will return to Washington to conclude its hearings.

The committee, under the resolution of the senate authorizing the investigation, has solely the power to inquire and report. Whether the senate itself has jurisdiction over any of the matters involved in the controversy between the miners and the operators is a grave question.

The representatives of the miners have gathered together a large amount of documentary evidence of conditions in the coal fields. In addition, Senator Kenyon contemplates a thorough inquiry into the financial operations of the operators on Paint and Cabin creeks, who lease the land they mine, and the ownership of the mineral lands.

Word came to Charleston early today from various sources that the miners at work in the operations at Paint and Cabin creeks had voted at a mass meeting to renew the strike.

ROUTED WITH HEAVY LOSS

Carranzists Defeated By The
Federals

Laid Plan to Ambush Force of
Mexican Regulars.

BATTLE FOUGHT IN CANYON

Provisional President Huerta Announces He Will Redouble the Government's Activity Against the Rebels in All Parts of the Republic. General Blanquet Appointed Minister of War—Troops at the Capital.

Mexico City, June 16.—Two thousand Carranzists were defeated by a body of federal troops under General Felix Pena at Canon de Bustamante, near Villa Aldama. The rebels had 150 killed and a great many wounded. The federal losses are not stated, but will not exceed 50. The rebels laid a plan to ambush the federals in this canon and were assisted by the people of the nearby town of Bustamante. The federals, however, mowed the rebels down with machine guns.

Telegraphic communication with Campeche, where Governor Castillo started a revolution some time ago, was resumed. Information received from that place is that Governor Castillo and his followers have retreated to the mountains before the federal troops, who have occupied Campeche. The recent cabinet changes seem to indicate that General Huerta is determined to take the reins of government into his own hands without confiding to subordinates the direction of military events or the civil measures for pacifying the country. It is now an open secret that General Huerta and General Mandragon, the minister of war, disagreed because the provisional president did not leave the war minister at liberty to direct the campaigns without any interference from the acting executive.

General Huerta's selection of General Blanquet as minister of war shows that Huerta is determined to run matters himself, as General Blanquet has for a long time operated under orders from the provisional president.

Provisional President Huerta announces that he will redouble the government activity against the rebels in all parts of the country. The war department, the citadel and the national arsenal, are bristling with activity and the city is full of newly arrived troops and volunteers, while military trains are being prepared in the railway yards.

High officials of the war department say that 1,500 men and 20 heavy cannons under General Rodio Navarrete will go forward to co-operate with the column of General Delago against General Natera's rebels, who are fleeing toward Somborere, and will afterwards go against the rebels of General Lucio Blanco, who occupies Matamoros.

MAY SEEK HIS SCALP

Dayton, O., June 16.—According to a rumor current here, resolutions will be offered by the city council at its session tonight, calling upon Governor Cox to demand the resignation of Mayor Edward Phillips. The resolutions, it is alleged, will be based on accusations of inefficiency and neglect of duty.

INJURES 4 PATIENTS

Lima, O., June 16.—Harry Bowers, 41, a patient in the city hospital here, went insane, and before he could be overpowered and strapped to his bed and attacked and injured four other patients in the ward. He battled with three nurses and a physician for 15 minutes.
